Testimonials

“I was a colleague of Andrea’s when we both worked in a women’s refuge. I was always impressed with how knowledgeable she was in the field of counselling women and families who had been traumatised by all forms of violence. I considered it a privilege to work alongside and learn from such a skilled and empathetic practitioner. Andrea led and facilitated workshops and courses, both at the refuge and in the wider community and her warm welcoming demeanour always made for a safe environment making learning easy and productive. She is always very professional and able to connect with people from all walks of life.” Rachel – support worker.
