Introduction

This selected bibliography is intended as a reading guide to assist those wishing to make submissions to the Government Inquiry into Mental Health and Addiction, 2018. It specifically looks at the links between violence/abuse, trauma and mental health and addiction issues and the need to prevent and respond to these issues in integrated ways. It does not seek to be a comprehensive list but rather to highlight key issues and resources. Material has been retrieved from the NZFVC library with some additional resources. Some items appear in more than one section.
